Subject: Term of FD Contract

In my last letter, I mentioned that Gerry Antoine would be forwarding his legal opinion as to whether the 2003 contract has expired. He forwarded this to me rather than sending directly to you. His letter is attached for your reference.

Gene, I can't help but note the progress we have made in each joint meeting we have held. I believe that the communication problems we have had of late are simply due to our inability to find a date that will work for both boards. Certainly both of us have seen the understanding achieved on the points that we have already discussed at length in our meetings. Let's get this thing done so we all can enjoy the warm weather.
